

IOLÀ

Catalogue // 2021

IOLA is a modern furniture company.  
Our products made by local craftsmanship  
and designed to be practical, unique,  
timeless and functional.

## CONCEPT // INTRODUCTION

“FLOW” is an ensemble  
*of* furniture that responds  
to the ever-evolving  
nature *of* life.

Inspired by the impermanence of life and the beauty of natural forms where there is a season for everything under the sun, just as much as the process in between each transition where the sense of each movement evoked by dancing veins, the anchoring of a new space to another with intangible memories and associations. Everything that comes to us, comes to pass or more accurately for us to pass on.

We are always in on transition, stretching, growing our edges where one day we will perfectly come to one understanding that everything in life is impermanent. Being in flow means being aware that the river of life is flowing to us at every moment and accepting whatever comes and putting it to good use, before passing it on.

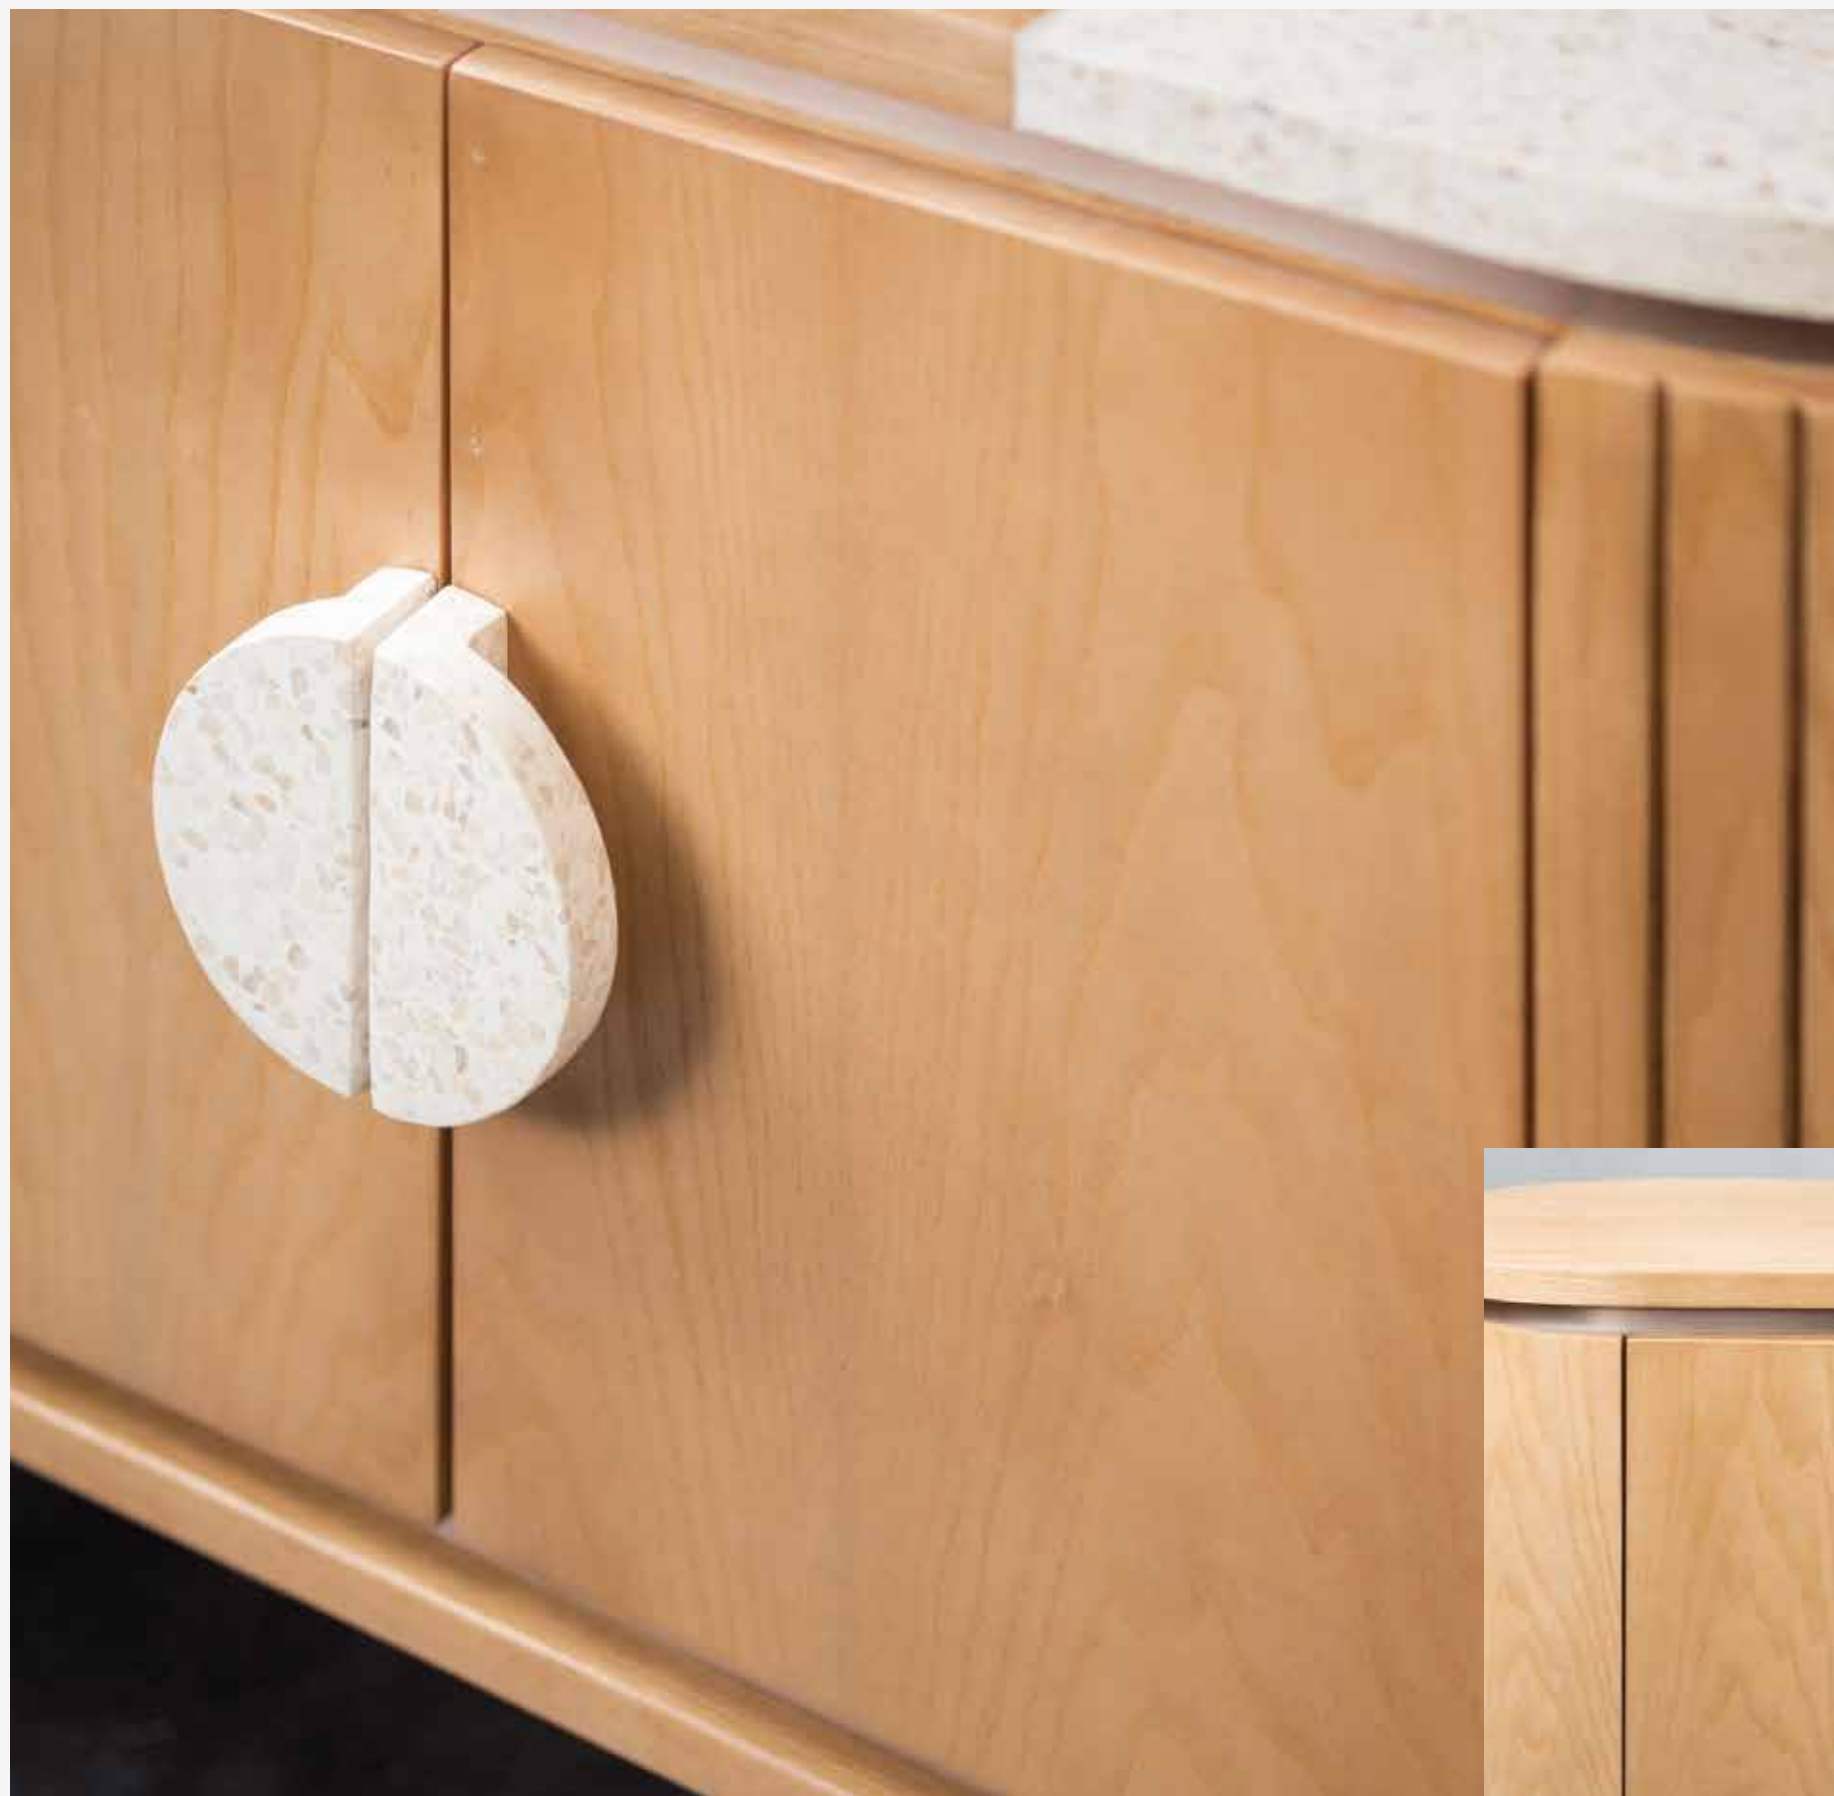

## MATERIALS // DESIGN CONCEPT

The design concept is simple yet innovative and can be easily changed depending on the seasons, occasions, or mood. The juxtaposition materials and shapes that we used in this collection truly an amalgamation of basic shapes of nature yet it brings a sense of comfort, simplicity with a minimal accent of nature shape within the combination of natural sungkai wood, terrazzo, and also handpicked sustainable fabrics that create timeless and functional furniture. A range of fabrics includes high-quality durable engineered polyester fabrics upholstery and recycled PET materials. Stain-resistant fabrics provide you with the ultimate gift: peace of mind.

## OUR PRODUCTS

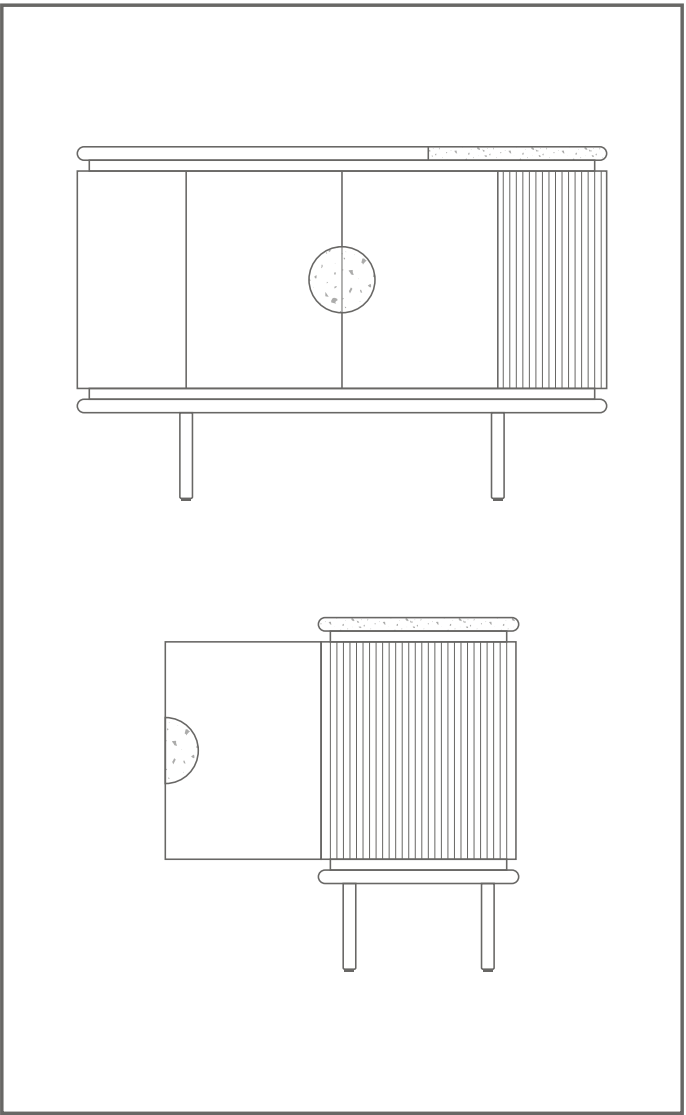

**01 //**  
OGDEN  
CREDENZA

# OGDEN CREDENZA

Length x Width x Height (mm)
